Many people ask how to organize the trip and what are the approximate costs.

In planning the trip very happy to help. Will determine the preliminary budget, a hint how to determine what we want to see, where to check reviews of hotels, where you read about the attractions. We will help you make a reservation for a car and [hotels](#) , so that if you could cancel it even on the day of arrival, suggest how to buy a plane ticket and insurance at a good price. If necessary, it is also possible telephone assistance in case of serious problems. Suggest how to obtain a visa, how to prepare the documents, how to prepare for travel, admission, etc.

We will help draw up a detailed plan for something like the following.
